### Profile

I am a voice over actor best described as having a young, fun, bright, and 'full of life' voice lending itself to a multitude of projects. My style pairs well with projects meant to appeal to those in the younger generations from 20 somethings all of the way down to the youngest babies

### Experience

AARP (October 2021)

I voiced an animated spot for AARP's campaign to explain Social Security to the younger sect

Young Pregnancy (September 2021)

I voiced a spot for a group urging teens to be more comfortable speaking with someone, including parents, about teen pregnancy

CBD (August 2021)

I voiced a project for a CBD manufacturer to educate the public on CBD products.

### Voice Over Education

I currently attend Advanced Theater class in my junior high school focusing on acting, performance, etc.

I currently train with my coach and Dad, Jeff Williams, who has voiced close to 400 spots in the last year and is a professional voice over actor as well as being represented by Crown North Talent Agency, Heyman Talent Agency, and Pastorini-Bosby Talent Agency
